War Brides Talk

Miss Longanecker recently organized the International Wives club which meets monthly at the American Legion home. They exchange recipes and handwork and explain their country's customs and have become very good friends, she stated. At the dinner this group discussed wages, employment open to women and various phases of their lives in their home countries.

Mrs. White, who wore a dress decorated in fine petit-point made by her and her mother, was born in Prague and among other war service worked in a munitions factory. She flew to this country last December. She said that until she came here she had never tasted fresh pineapple as fresh fruits were entirely out of the range of middle-class families in her country. Mrs. Simpson was born in Bath, England, and was an ambulance driver during the war. Her husband was an ambulance driver in the next hospital.

Mrs. Donaldson, a London girl, went into the Auxiliary Territorial Service rather than do munitions work and said she met her future husband while he was stationed near her. She remarked that the chicken a la king served at the dinner was the first she had ever tasted, that in England her father had once paid as much as \$20 for a Christmas chicken, so that it was always served boiled or roasted and never fried or creamed. will mean a "rollback of illegal rents," as well as increased rents on some properties where landlords are not now showing a profit. He said it will put an end to the rent "blackmarket" that Tighe Woods, rent administrator, reported to be growing throughout the country. 2. House Democratic Leader Mc-

Cormack (Mass.) said in his opinion there won't be any big increases in rent for anyone, and most rents probably won't be increased at all. 3. Paul V. Betters, executive director of the U.S. conference of mayors, predicted no major city will drop rent controls under the "home rule" provisions of the bill, that allows states or localities to throw off the controls (Governor Thomas E. not approve residential rent decontrol in that state without "clearest sary nor desirable."
